Hardware Hookup Each						

Bulk space and large oversized booth electrical information should be mapped out on drawings to indicate location of outlets. Labor Charges: There is a labor charge on 208-volt outlets. This includes wiring of our pigtail into your machine or removing your plug and putting ours on. All labor is properly insured, supervised and controlled for the protection of the exhibitor. The electricians will not connect any exhibit that does not meet electrical code. We are not responsible for problems arising from unlabeled or mislabeled equipment, or from the use of non-standard wiring practices on your equipment.
